## Queendom

## **AURORA**

The underdogs are my lions
The silent ones are my choir
The women will be my soldiers
With the weight of life on their shoulders

Drink until you've had enough I'll drink from your hands I will be your warrior I will be your lamb

Till queendom come Till queendom come My queendom come Our queendom come

The sea waves are my evening gown And the sun on my head is my crown I made this queendom on my own And all the mountains are my throne

Drink until you've had enough I'll drink from your hands I will be your warrior I will be your lamb

Till queendom come Till queendom come My queendom come Our queendom come

I hunt the grounds for empathy And hate the way it hides from me Of care and thirst I have become You have a home in my queendom You have a place in my queendom You have a place in my queendom You have a home..

Till queendom come
Till queendom come
My queendom come
My queendom come
Our queendom come
My queendom come
