It took some time and it took some hope
And like a coward, I waited at home
I wrapped my hands around you in the dark
To see what happens to the heart

Take me up, then keep me high
Never let me go before you teach me how to fly
Take me up, then keep me high
'Cause above the rain, above the clouds, it's always bright

Hurricane! Come again!
Lift me up, forgive me earth
I'm going away

Did I see you stand there
Where the sun burns your air
I'm with you
I'm with you
Feel for you

(I've been)
Asking you hide away
When the storm on your way
I'm with you
I'm with you
Here for you

It took some time and it took some tears
To learn the lesson of killing fears
I'm breathing out and I release the hold
To see what happens to the soul

Take me up, then keep me high
Never let me go before you teach me how to fly
Take me up, then keep me high
'Cause above the rain, above the clouds, it's always bright

Hurricane! Come again!
Lift me up, forgive me earth
I'm going away

Hurricane! Come again!
Lift me up, forgive me earth
I'm going away

Waiting for rain
Waiting sunrise paint the shade
(Lying down)
Waiting for the storm for so long
Alone

Take me up, then keep me high
Never let me go before you teach me how to fly
Take me up, then keep me high
'Cause above the rain, above the clouds, it's always bright

Hurricane! Come again!
Lift me up, forgive me earth
I'm going away

Hurricane! Come again!
Lift me up, forgive me earth
I'm going away
