

STRATOSPHERE.

aurorawave

Sit back, relax, we've reached our cruising attitude
And if you're going up well then you better adjust that attitude
All of the bullshit we've been through starting to fade into the blue
You gain a new perspective when you start reflecting
From this point of view

And they tell me that my head's in the clouds
I don't even care I'm never coming down
I'm gonna stay right here
Way up in the stratosphere
I'm way too high, I can't hear you
So you can go and do whatever you need to
But I'm gonna stay right here
Way up in the stratosphere

You feel the weight of the world lifted off your chest
Way up above where we're so weightless
There's no more gravity
In our new reality
The further you go then the lighter you feel
You've gotta pinch yourself so you know it's real
And no this is not a dream
Told you to trust and believe

And they tell me that my head's in the clouds
But I don't even care I'm never coming down
I'm gonna stay right here
Way up in the stratosphere
I'm way too high, I can't hear you
So you can go and do whatever you need to
But I'm gonna stay right here
Way up in the stratosphere

And they tell me that my head's in the clouds
I don't even care I'm never coming down
I'm gonna stay right here
Way up in the stratosphere
I'm way too high, I can't hear you
So you can go and do whatever you need to
But I'm gonna stay right here
Way up in the stratosphere
