

Suffocate

aurorawave

Hypocrites and parasites, oh no
Well they all wanna take a bite
So watch out
'Cause who the cap fits, we let them wear it
No matter how they try to disparage, oh yeah
So we tell them again
And again and again

Stay true like you always do
Work hard and make your moves, oh yeah
Live how you wanna live
Only got one life so keep it positive (hey)
Don't listen to the noise and hate
'Cause only you decide your fate right now
Holding their breath, they sit and wait
To watch you fall, so make them suffocate

If them try to test me it's a big mistake
Love me if you love me and hate me if you hate
Stay real 'pon the journey, me no care who fake
Working with a purpose have to buss up every gate
Jah Jah give me everything
Buss me voice mek we a sing
Ready fi work ever willing and positive when me a sing
From Jamaica to foreign, roots reggae we rocking
Living my life the way I want, you hear me chant

Stay true like you always do
Work hard and make your moves, oh yeah
Live how you wanna live
Only got one life so keep it positive (hey)
Don't listen to the noise and hate
'Cause only you decide your fate right now
Holding their breath, they sit and wait
To watch you fall, so make them suffocate

Stay true like you always do
Work hard and make your moves, oh yeah
Live how you wanna live
Only got one life so keep it positive (hey)
Don't listen to the noise and hate
'Cause only you decide your fate right now
Holding their breath, they sit and wait
To watch you fall, so make them suffocate

So we tell them again
So we tell them again
