

Memphis

Auryn

She's got it in her soul
Raised down south where the peaches grow
Just like her momma was
She don't know all the things she does
She's wild and carefree
Touch her and you'll fall
She got it all (she got it all)

She'd call me late at night
Underneath the covers I would hold her tight
I still can't believe
All the little thing that she did to me
And when no one was lookin'
She'd touch me and I'd fall
She got it all, she got it all

She was born, born to run
Left a note she was gone
Guess my love was the chain that held her down
Last I heard she could be
Living back in Tennessee
Now I got a plane to catch
Find a way to get her back

I never been to Memphis
But I know I have to go
Because she stole my heart
She took it far away and left it
She went down, down
Down home to Memphis

Lord I can see her now
Black sundress with her hair down
She's got that southern style
Makin' all the boys wanna gather 'round
She's wild and carefree
Love her and you'll fall
She got it all, she got it all

She was born, born to run
Left a note she was gone
Guess my love was the chain that held her down
Last I heard she could be
Living back in Tennessee
Now I got a plane to catch
Find a way to get her back

I never been to Memphis
But I know I have to go
Because she stole my heart
She took it far away and left it
She went down, down
Down home to Memphis

I never been to Memphis
But I know I have to go
Because she stole my heart

She took it far away and left it
She went down, down
Down home to Memphis

Down home to Memphis
She stole my heart
She took it far away and left it
She went down, down
Down home to Memphis
