

Still

Auryn

I am frozen
Out of bed
You've cut me open
And stripped me bare
No masquerade or escape from you
I'm the mirage you see through
And I still
And I still
Miss you like deserts miss water
And I still
And I still
Feel you around every corner
I braise and I break
But there's no other place
That I still need you
Lost in my skin
And the world falls down
Resistance gives in
When you're around
Easily reach me without a word
With one touch you take me under
'cause I still
And I still
Miss you like deserts miss water
And I still
And I still
Feel you around every corner
I braise and I break
But there's no other place
That I still need you
Can't erase
Take back
Once be stolen
If I try
Can't rewind
Every moment
It's gone
And I still
And I still
And I still
And I still
Miss you like deserts miss water
And I still
And I still
Feel you around every moment
I braise and I break
But there's no other change
That I still need you
That I still need you..
