

Stop & Listen

Auryn

Maybe you'll bring me luck
And teach me how to love
Spaces we haven't got much
And money is running out
Facing troubles up ahead
Cutting us down
Running on empty trying to find
On easy way out
You'll never be alone, I swear
There's nothing I can do
Just stop and listen
I don't want to make a change
The lies are up to you
Just stop and listen
Life gives a second chance
And shows us how to be
We're burning our bridges now
And falling into the sea
Facing troubles up ahead
Cutting us down
Running on empty trying to find
On easy way out
You'll never be alone, I swear
There's nothing I can do
Just stop and listen
I don't want to make a change
The lies are up to you
Just stop and listen
Just stop and listen
Just stop and listen
You'll never be alone, I swear
There's nothing I can do
Just stop and listen
I don't want to make a change
The lies are up to you
Just stop and listen
Just stop and listen
Just stop and listen
