Tedium

Aus-Rotten

```
I fear that I'm losing what little was mine
I gave you control and you're robbing me blind
I showed you my soul and you took all I had
Blind, mained, disfigured you left me for dead
I look out my window down on
the street/ See all the people crushed out by defeat
See all the suffering it shines in their eyes
Pushed to the limits humanity dies
We go on slaving day after day
Just to survive collecting our pay
And to the rich go all the spoils
And to the poor degradation and toil
You stole all my time corrupted my mind
Made all your profits and left me behind
Treated me like nothing,a line on a chart
It's your mindless Tedium that tore me apart
```
