

## Find A Way

**Austin Basham**

You were the water cleaning my wounds  
Meek was the water  
Meek I am too  
You are my orchid covered in snow  
The sun shining winter  
A garden that grows  
But oh, we just gotta hold on

Oh, before I go  
I'm gonna find a way to say that I only needed you  
Oh, before I'm gone  
I'm gonna find a way to say that I love you  
And I have been lying with these fears slowly dying

But I've gotta go away  
No I won't know  
I won't know  
Where the winds will blow  
As I cross the seas will you still believe in the light of me?

And I said oh what a gal as my ship catches sail  
My heart beckons through holy waters  
Because I saw sorrow in myself  
As fires fury from my hands

Oh living waters grace this land  
Oh, living waters grace this land  
Oh, now that I'm gone

I'm gonna find a way to say that I love you  
The most  
Oh, now that I'm gone  
I'm gonna find a way to say that I love you most of all  
I love you most of all  
And oh we just gotta hold on
