

Ready Or Not

Austin Basham

It's a long way to the top
Whether you're ready or not
Your arms have started shaking
Scared your ship is sailing on

I know you may feel
That your hope isn't real
Dispose the dirty water
That leaves you curling over after dark
After dark

Word to the wise
Get rid of your disguise
I know you might feel naked
But soon you will awaken for more
You're a light in this world
Shine more

Don't be scared your ship is sailing
Scared your ship is sailing
Scared your ship is sailing on

Don't be scared your ship is sailing
You've got plenty left to offer
Ships keep coming all the time
Even if you're behind
