

# Roots

Austin Burke

If you wonder why I pick this six string  
Still got mud on my F-150  
Or why I might talk a little different than you  
Yeah if you  
Ever see me sippin' my Jack straight  
Mix Garth Brooks and Drake down the highway  
If you wonder why I do what I do  
Well you

Can blame it all on my roots  
All on my hometown  
Them Arizona roads we rolled down  
I was raised on the rodeo dust  
I am who I am 'cause of who I was  
Blame it all on the nights  
All them desert stars  
I kept wishing on that got me this far  
With a west coast tan and a little sand on my boots  
Yeah you can blame it all on my roots

Maybe that's why I'm hooked on the sunset  
Two country stations saved on a preset  
Should've been a cowboy  
A turn it up loud boy  
Everybody's got a little where they're from  
'Cause small town big town we all got one  
You don't ever really leave it  
That's why I keep singing

Blame it all on my roots  
All on my hometown  
Them Arizona roads we rolled down  
I was raised on the rodeo dust  
I am who I am 'cause of who I was  
Blame it all on the nights  
All them desert stars  
I kept wishing on that got me this far  
With a west coast tan and a little sand on my boots  
Yeah you can blame it all on my roots  
Blame it all on my roots

Everybody's got a little where they're from  
(You never really leave there)  
You can find me in the desert sun  
(That's why I keep singing)

Blame it all on my roots  
All on my hometown  
Them Arizona roads we rolled down  
I was raised on the rodeo dust  
I am who I am 'cause of who I was  
Blame it all on the nights  
All them desert stars  
I kept wishing on that got me this far  
With a west coast tan and a little sand on my boots  
Yeah you can blame it all on my roots  
Blame it all on my roots

Blame it all on my roots  
Blame it all on my roots
