

Slow Kissin' In A Fast Car

Austin Burke

Every time we take it for a spin
We end up somewhere we've never been
I got that pedal to the metal
You're holding on tight
Driving me crazy when you give me those eyes
It's like we're burning it up, and we're kicking up dust
But we're just

Slow kissin' in a fast car
Four tires and two hearts
Going a hundred miles an hour and it's still in park
We're slow kissin' in a fast car

Heating up the summer and the cool night sky
Couple young lovers in a 65
Going nowhere just to take it too far
We're slow kissin' in a fast car

I got a couple hundred horses but they stabled underneath the hood
And Lord knows they ain't running like they could
'Cause we're in the backseat in the country off an old two-lane road
Keys in the ignition with the top off but we're takin' it

Slow kissin' in a fast car
Four tires and two hearts
Going a hundred miles an hour and it's still in park
We're slow kissin' in a fast car

Heating up the summer and the cool night sky
Couple young lovers in a 65
Going nowhere just to take it too far
You know we are

Slow kissin' in a fast car
Four tires and two hearts
Going a hundred miles an hour and it's still in park
We're slow kissin' in a fast car

Slow kissin' in a fast car
Four tires and two hearts
Going a hundred miles an hour and it's still in park
We're slow kissin' in a fast car
Slow kissin', slow kissin'
Slow kissin' in a fast car
