

Holy Ground

Austin French

Enough is enough
The world can be tough
I try and I try
But I'm always falling
Enough is enough
It's time to give up
I lay it all down, Jesus
I surrender

Your presence, Your spirit
Is breathing new life into my soul
I'm only free, only alive
When my clenching fists let go
Take my life, take control
Until my feet are walking on

Holy ground
You are in every breath I'm taking
And every single step is on
Holy ground
Your fire is burning, now I'm waking up
And now I'm walking on holy ground

Time after time
In the days and the nights
Feels like a fight
But the fight's worth fighting
'Cause here in my heart
There's light in the dark
All of my strength
Flows from Your power

Your presence, Your spirit
Is breathing new life into my soul
I'm only free, only alive
When my clenching fists let go
Take my life, take control
Until my feet are walking on

Holy ground
You are in every breath I'm taking
And every single step is on
Holy ground
Your fire is burning, now I'm waking up
And now I'm walking on holy ground
I'm walking on holy ground

Enough is enough
It's time to give up
I lay it all down, Jesus
I surrender!

Holy ground
You are in every breath I'm taking
And every single step is on
Holy ground
Your fire is burning, now I'm waking up

And now I'm walking on holy ground
I'm walking on holy ground

I'm walking on holy ground
