Andrea

Brown eyes and that southern charm I  
Can't shake it  
I get so excited when you pop on my celly  
Baby you're like wings for the mind

I been thinking bout your face all day  
I been thinking bout your grace all day  
When you text my phone and your name pops up you know I  
Get excited always

I just want you here attached to me  
Baby when your gone two minutes feel like two weeks  
It's not my business all the ways it was  
You could hit me with a truck id still get up in love
