

# Can't Leave

Austin George

Days go by like leaves  
In the winter violent breeze  
Got your ghost right next to me  
And she keeps me company

Yeah how could I forget  
What you said in December  
How could I regret  
When you held me together

But if it dies again  
I won't try to mend  
We been on the edge  
Can't leave  
Oh if it dies again  
I won't try to mend  
We been on the edge  
Can't leave

Yeah, we both shared a feeling I know (I know)  
Conversations that give substance too much that we in love  
Seems like we both been growing cold (so cold)  
Tryna balance what we want and what we need  
It's getting hard to let go  
Of what we had  
And to stop coming back  
I know it, I know it, I know it  
Yeah I know how it all ended  
And I know what we both said  
But I still want to try

But how could I forget  
What you said in December  
How could I regret  
When you held me together

But if it dies again  
I won't try to mend  
We been on the edge  
Can't leave  
Oh if it dies again  
I won't try to mend  
We been on the edge  
Can't leave

Can't leave  
Oh, can't leave  
Oh, can't leave  
Oh, I can't leave
