

Good Time

Austin George

I need your touch
Need that rush
Just top me, goin' 70
Pray for love, still get lust
Maybe one day we'll have everything
Don't leave, no
Nights get rough
I still need your company
Show me what a good time really means
Show me what a good time really means

Show me good sex, good vibrations
Can I love you on a first name basis?
Now she want me cause I'm more, more famous
On a high right now, don't waste it
You know what they be sayin' bout Texas
Got you stressin' out, doin' gymnastics
I can fuck you, ain't no blockin' out your exes
When it's over you'll be saying I'm the bestest

Put your life on pause
At the night, there goes
She's tryna live a life that's shining
You don't gotta be mine and lower your eyes
But whatever it is, I'll take it

I need your touch
Need that rush
Just top me, goin' 70
Pray for love, still get lust
Maybe one day we'll have everything
Don't leave, no
Nights get rough
I still need your company
Show me what a good time really means
Show me what a good time really means

That's my baby
That's my favorite
I lose my mind (My mind)
For you baby (Baby)
And she poppin' shit that makes me wanna slide all night
This the typa shit that make you fly like Nike
This the typa shit that make the time fly by
Give you all new life, every night's your night

Put your life on pause
At the night, there goes
She's tryna live a life that's shining
You don't gotta be mine and lower your eyes
But whatever it is, I'll take it

I need your touch
Need that rush
Just top me, goin' 70
Pray for love, still get lust
Maybe one day we'll have everything

Don't leave, no
Nights get rough
I still need your company
Show me what a good time really means
Show me what a good time really means
