

## make it right

Austin George

Feelings too strong to ignore  
Who would I be if I knew I wasn't yours?  
Who gonna stop you when you go way overboard?  
Who gonna steer you straight when you go off your course?  
I do, I do

I take care whatever you like  
I'll bag that no matter the price  
I walk in and buy the whole store  
She walk in and everyone knows

Need you here for the long time, baby, don't you leave my side  
Do whatever you need I'll follow you until I'm blind  
I be fucking up daily but I try to make it right  
Let's go half on a baby I ain't tryna waste no time

And time just keeps on flying on by  
I moved west and things got wild  
You said that I played too much  
The sarcasm that's how I hide  
We grew up the same way while  
Stayed in line, didn't say much, didn't say why  
Lovin' ain't hard, but you didn't even try, that's why

I take care whatever you like  
I'll bag that no matter the price  
I walk in and buy the whole store  
She walk in and everyone knows

Need you here for the long time, baby, don't you leave my side (Don't  
you leave my side)  
Do whatever you need I'll follow you until I'm blind  
I be fucking up daily but I try to make it right (Try to make it right)  
Let's go half on a baby I ain't tryna waste no time

Need you here for the long time, baby, don't you leave my side (Don't  
you leave my)  
Do whatever you need I'll follow you until I'm blind ('Til I'm blind)  
I be fucking up daily but I try to make it right (Try to make it right)  
Let's go half on a baby I ain't tryna waste no time

Don't you leave my side  
Don't you leave my side  
Don't you leave my side  
Don't you leave my side  
Don't you leave my side  
Don't you leave my side
