

# Control

Austin Giorgio

I've got my eyes on every inch of your body  
You love that I'm watching  
And I can't look away  
You've got it planned out  
Think we know where it's going  
Wild thoughts are rolling  
You'll be the death of me

I'mma take my time, giving you my soul  
Kissing up your neck till' your eyes roll  
Baby I'm holding the Whips and chains  
But you're pulling all of the strings  
Gotta grip on me babe we both know  
You're in control

I feel the heat rising  
This pulse ain't bluffing  
The air's got us humming  
Baby I won't break  
Slow hands are taking over  
Your legs on my shoulder  
As I pull you in closer  
I'm gonna have my way

I'mma take my time, giving you my soul  
Kissing up your neck till' your eyes roll  
Baby I'm holding the Whips and chains  
But you're pulling all of the strings  
Gotta grip on me babe we both know  
You're in control

It's the pressure it's the rhythm  
When our lips collide  
It's the sharpness in your breath  
That makes me lose my mind  
The pressure  
The rhythm  
When our lips collide  
I wanna devour all that's mine

I'mma take my time, giving you my soul  
Oh I'm gonna give it slow  
Kissing up your neck till' your eyes roll  
Oh make you moan  
Baby I'm holding the Whips and chains  
Whips and chains  
But you're pulling all of the strings  
All the strings  
Gotta grip on me babe we both know  
You're in control  
Ohh you're in control  
Gotta grip on me babe we both know  
You're in control  
Ohh I'mma take what's mine  
I'mma take it slow  
I'mma take it slow  
I'mma take it

I'mma take it  
You're in control  
Mhhmm
