

# Moon

Austin Giorgio

I would give up forever to be  
Somebody to you  
And I hate when we fight and forget  
It's not me vs you

I don't want pain  
I don't want hurt  
I don't want sorrow  
I don't want lies  
I don't want tears  
I don't want shallow  
I have my faults I know where they fall  
And for that I'm sorry  
I'm trying, baby

Cos' I want you  
Wishing I would be enough cos' I don't wanna lose  
Waking up and knowing that we'd still choose  
To see another moon  
I don't wanna give up  
Just because we're on our darkest hour and it's real tough  
I will love you like the stars love to shoot  
And shadows love the moon

We can love just like rain but one drop  
Too much and we'll drown  
Nothing makes sense when you're gone  
I need you around

Cos' I want you  
Wishing I would be enough cos' I don't wanna lose  
Waking up and knowing that we'd still choose  
To see another moon  
I don't wanna give up  
Just because we're on our darkest hour and it's real tough  
I will love you like the stars love to shoot  
And shadows love the moon

Cos' I want you  
Oh  
You  
Oh  
You  
Oh  
Baby  
Oh

Cos' I want you  
Wishing I would be enough cos' I don't wanna lose  
Waking up and knowing that we'd still choose  
To see another moon  
I don't wanna give up  
Just because we're on our darkest hour and it's real tough  
I will love you like the stars love to shoot  
And shadows love the moon
