

# Stardust

Austin Giorgio

You sit alone in the cafe  
Downtown  
Hoping to see the right face among  
The crowd

You're a hopeless romantic  
Dreaming of the way  
That your shining prince charming  
Will meet you today

They'd have stardust in their eye  
A grin that could make you sigh  
They would stay through the night  
Young love that would never die  
Will this fairytale come true?  
Do you ever see it through?  
Are you on the set of a movie  
That'll never get to shoot?

You walk home  
Through the park at night  
Feel saddened by couples under  
The lights

You're a hopeless romantic  
Dreaming of the way  
That your shining prince charming  
Will kiss you today

They'll have stardust in their eye  
A grin that could make you sigh  
They would stay through the night  
Young love that would never die  
Will this fairytale come true?  
Do you ever see it through?  
Are you on the set of a movie  
That'll never get to shoot?

They'd have stardust in their eye  
A grin that could make you sigh  
They would stay through the night  
Young love that would never die  
Will this fairytale come true?  
Do you ever see it through?  
Are you on the set of a movie  
That'll never get to shoot?  
Oh, yeah, yeah, yeah
