

Walking +

Austin Giorgio

When you're walking
Near the place
Where we started talking
Do you ever stop
And how often
To think of our memories there
Do you even really care (cos I do I do)

Mhh...
I miss you most of all when
I don't get any calls past ten
I miss you most of all when
We were talking
When we were talking

Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
All alone

Woo hoo hoo...

I sit at the pier
Watch boats disappear
I think about how
You let me drown
And I'm not sure now
How to really go about
Living without ya
I'll just go down down down

Mhh...
I miss you most of all when
I don't get any calls past ten
I miss you most of all when
We were talking
When we were talking

Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
All alone alone alone

Woo hoo hoo...

Don't do it to me
Don't share
Who you're with now
It's not fair

I loved you, yeah
I loved you, oh
Don't do it to me
I don't care
Who you're with now
It's not rare
I miss us talking

Cos now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
All alone

Woo hoo...

Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
On my own my own
Now I'm just walking
All alone
Yeah, all alone
