

Save It for Yourself

Austin Lucas

You said you had it all
How sweet that must have been
Round here we've got nothing
Except the trouble that we're in
You think you have the answers
The truth that you must share

Just save it for yourself
Save it for yourself

How do you deal with your lonely nights?
How do you deal with the sun?
The pain of who you are, the shame of what you've done?

How far from the truth can one person be?
Truth is what they seek
How far would you go to show what you think you know?

Or would you save it for yourself?
Save it for yourself
Shout it to the moon or keep it all inside
Just save it for yourself
Save it for yourself

And now you never drank alone
Save it all for your friends
Seem to have so many
So many fools to hold your hand
They think you have the answers
The truth that you must share

But save it for yourself
Save it for yourself
Shout it to the moon or keep it all inside
Just save it for yourself
Save it for yourself

Nothing I can do
Just cross the break and hide
Save it for yourself
Keep it to yourself
