

Feels Like Love

Austin Mahone

This feels like love
This feels like love
I know I could be wrong
This feels like love
This feels like love
It makes me wanna sing
La la la la
La la
La la la la la la la la la la
This feels like love
This feels like love
I know I could be wrong

It's just something that I have to know
Because it's feeling like it's magical
But I swore I wasn't ready
Swore I wasn't ready
But the way you put that spell on me
Got me feeling like the birds and bees
The male version of butterflies
And I'm feeling like

This feels like love
This feels like love
I know I could be wrong
This feels like love
This feels like love
It makes me wanna sing
La la la la
La la
La la la la la la la la la la
This feels like love
This feels like love
I know I could be wrong

I don't wanna rush into anything
But a woman like you just ain't anything
But those three little words
Those three little words are scary
No, I don't take this kind of thing lightly
But the way the world's going shit, I might be
So what the hell am I saying
Hell am I saying girl?

This feels like love
This feels like love
I know I could be wrong
This feels like love
This feels like love
It makes me wanna say
La la la la
La la
La la la la la la la la la la
This feels like love
This feels like love
I know I could be wrong
