Get Gone

Austin Mahone

Hey baby before should part
I want you back is your town
These feelings are all I own
Oh woah, I know

Yeah I know you belong in the seat
So seat close you can go just for me
Don't go to far just can remain here
I'm just kinda into you babe

I understand there's a look
I just need a little time alone
A moment to ourselves let's get gone
Or tell am I wrong
Is just that look that you have
Who says we need to get a body and spend a little time alone
Somewhere no else let's gone
I'm with you all night long

Say you lookin' for trouble you found him
Tell me if you ever have been with a man yeah, yeah
Can you feel my love surrounding
Come and take my hand, if you dare

We both know you belong in those sheets (don't suppose)
Break that back, girl come closer to me
Don't take long just can remain here
I'm just kinda into you babe

I understand there's a look
I just need a little time alone
A moment to ourselves let's get gone
Or tell am I wrong
Is just that look that you have
Who says we need to get a body and spend a little time alone
Somewhere no else let's gone
I'm with you all night long
