

Joyride

Austin Mahone

Heard you had another long day
I wanna hear about it, baby
Tonight we're doing things my way
I got some place I wanna take ya

Now I see how you go all the way to make me so pleased
You're the one I want by me

So let's joyride
We can do anything you've been wanting to do
'Cause it's your night
What you say about trying something brand new?
Don't you tell me we should slow it down
Let me take you all the way around

So let's joyride,
So let's joyride,
Baby, let's ride

Baby, let's ride
Oh yeah
Baby, let's ride

Had another one of those nights
I know things can get crazy
And you're in need of a good time
So I'll be sure not to waste it

Now I see how you go all the way to make me so pleased
You're the only one I need

So let's joyride
We can do anything you've been wanting to do
'Cause it's your night
What you say about trying something brand new?
Don't you tell me we should slow it down
Let me take you all the way around

So let's joyride,
So let's joyride,
Baby, let's ride

Baby, let's ride
Baby, let's ride

Don't stress, don't stress
It's alright, baby you're alright
Just leave all those worries behind

So let's joyride
We can do anything you've been wanting to do
Baby
Oh yeah

So let's joyride
We can do anything you've been wanting to do
'Cause it's your night

What you say about trying something brand new?
Don't you tell me we should slow it down (slow it down babe)
Let me take you all the way around

So let's joyride
Let's joyride
Baby, let's ride

Baby, let's ride
Said let's ride
Baby, let's ride
