Bad girl in my section  
Moving that body  
Anytime you want it  
Baby come and find me  
Baby come find me  
Fall for you when you unwind  
No fighting you

Moving that body  
Anytime you want it  
Baby come find me  
You know where to find me  
Fall for you when you unwind  
No fighting you

Pull up in the race car  
Got your girl on my radar  
All bape with the hoodie  
I don't have to ask cuz your bitch bring it to me  
So what you wanna do  
Bitches by the pool  
Brand new Rolex and I got it brand new  
She wanna get a ring and it's only day two  
So many bad tins that a guy can't choose  
Oui  
Wearing designer we up in the coupe  
Just like your top I might take off the roof  
Maybe the drink is just getting me loose  
Only one mission that's leaving with you

I like the way you move that bae  
I like the way you flip your hair  
I like it cuz I take that there  
I need for you to be right here

Baby  
I'll keep it straight  
Don't like to chase it  
But if you're throwing it like that  
I might have to catch it and see how you slide

Yeah I like the way you whip your hair  
And I caught a couple sip and stares  
You're the feisty type I know you don't care

To hold my waist  
Only thing you really want is space  
Just so every body can see you go off  
Even when you're done and you don turn yourself on  
I'm not that far

So come my way  
You tryna score and you need a home base  
Guarantee it won't take us too long  
Yiken on you right where you are
