

Oxygen

Austin Mahone

Oh, I'm sitting on the sofa, feeling wasting
And without you, I am suffocating
Uhh, something but your body got me racing
I'll be alright, I'll be alright, yeah

The [?] on me, every breath that belong me
Till we numb our bodies
And I don't feel a thing

Only you save me
I wanna breathe you in
I need your oxygen, oh baby (oh baby)

When your lips taste me
You gotta let me in
'Cause I need your oxygen, oh baby

I breathe you out, I breathe you in
Until we start back up again
I breathe you out, I breathe you in
Until we start back up again
'Cause you're my oxygen

[?]
No, skin to skin and underneath ya
So stay like this, don't move an inch, I need ya
I'll be alright, I'll be alright, ayy
I said that I'll be alright

The [?] on me, every breath that belong me
Till we numb our bodies
And I don't feel a thing

Only you save me
I wanna breathe you in
I need you, oxygen, oh baby (oh baby)

When your lips taste me
You gotta let me in
'Cause I need you, oxygen, oh baby

I breathe you out, I breathe you in
Until we start up again
I breathe you out, I breathe you in
Until we start back up again
'Cause you're my oxygen

You know I need you, baby
I can feel you, baby
You know that I breathe you in
You know I need you, baby
I can feel you, baby
Uh, uh, uh, uh, uhh

Only you save me
I wanna breathe you in
I need you, oxygen, oh baby (oh baby)

When your lips taste me
You gotta let me in
'Cause I need you, oxygen, oh baby

I breathe you out, I breathe you in
Until we start up again
I breathe you out, I breathe you in
Until we start back up again
'Cause you're my oxygen
