

Ride of My Life

Austin Mahone

She gave me the ride of my life
Three drinks in and I'm thinking twice
And now my life is something like hell
Something like hell in paradise
On a night like this I'm missing the ride
On a night like this I'm missing the ride
Of my life

I know that she knows what she's done
And she knows that I know that she won
And sometimes late at night when I'm drunk and messed up
I forget all the pain and go numb
When you pop in my head call you up
And it hits me again that you left me back then
And you ain't gon' pick up

She gave me the ride of my life
Three drinks in and I'm thinking twice
And now my life is something like hell
Something like hell in paradise
She gave me the ride of my life

Yeah and now that you're my ex like tic tac toe
Ain't amount of incense to hide that odor
Ain't amount of innocence to hide that hoe
I hope that I get over you as I get older, no

It's a trick how you dipped on me so quick
When did you learn magic?
Wish I could unsend those texts
That I sent back in Texas and draft them
And I should forget all the pain and go numb
When you pop in my head call you up
And it hits me again that you left me back then
And you ain't gonna pick up

She gave me the ride of my life
Three drinks in and I'm thinking twice
And now my life is something like hell
Something like hell in paradise
On a night like this I'm missing the ride
On a night like this I'm missing the ride
Of my life

She gave me the ride of my life
Three drinks in and now I'm thinking twice
And now my life is something like hell
Something like hell in paradise
On a night like this I'm missing the ride
On a night like this I'm missing the ride
Of my life, yeah
