

Summer Love

Austin Mahone

Dropped the top [?]
Sand all over the place
Hands all over your waist
You and I, we would lay up the latest
Have naked conversations
Knew this love wouldn't make it, yeah

You could see the spark every time we would light it
Like fireworks on the fourth of July
We'd ride for some time
'Cause it's rare to see two stars in a line
And it might be the last time I hold you tonight
If we ride, then baby keep riding

Summer love
Know you won't forget this summer love
Know I'm gonna miss this summer love
All that's left is pictures of what was
(Summer love)

All those secrets that you chose to say
Are still safe here with me
I'll take those to the grave
(Wherever, they won't go nowhere)
Yeah, yuh
Way down south past the double AA
Just to get to your place
[?], oh yeah

You could see the spark every time we would light it
Like fireworks on the fourth of July
We'd ride for some time
'Cause it's rare to see two stars in a line
And it might be the last time I hold you tonight
If we ride, I'll hold you tighter, sing it

Summer love
Know you won't forget this summer love
Know I'm gonna miss this summer love
All that's left is pictures of what was
(Summer love)
