

Unladylike

Austin Mahone

Stay here a while
That's what I really want is you (yeah)
Laying next to me
With nothing on the side I knew (mmm yeah)

Let's be about this second down
To outshine the room for something else
I asked for friends that never leave your side
Now show these girls you came here with tonight
That you're mine

No it's not crazy to call me babe for the night
Promise if you stay I won't take this unladylike

Just make a note, what turns you on
Girl we're both grown, control
Let's lose our clothes, all the control
I'll give you the benefits as it's, just gotta let me know

Let's be about this second down
To outshine the room for something else
I asked for friends that never leave your side
Now show the ones you came here with tonight
That you're mine

No it's not crazy to call me babe for the night
Promise if you stay I won't take this unladylike
