

# Wait Around

Austin Mahone

It's too damn late to be thinking 'bout  
These old mistakes, it's crazy how we're  
Up and down, up and down  
I need to know if you're in or out, in or out

Can we both agree, ain't the same?  
Time will tell, things have changed  
I need you to tell me, baby  
Tell me, baby, tell me, babe  
Tell me how to see, I gotta know  
Either way

'Cause I can't wait around for you, you, you  
'Cause I got too many things to prove, ooh  
I think it's time that you choose  
What this really means to you  
I wish I could read your mind  
Just to predict your next move  
Yeah 'cause I can't wait around for you, you, you

'Cause the good ones will go  
If you wait too long  
I learned that from my  
Favourite song  
We're up and down, up and down  
I need to know if you're in or out, in or out

Can we both agree, ain't the same?  
Time will tell, things have changed  
I need you to tell me, baby  
Tell me, baby, tell me, babe  
Tell me how to see, I gotta know  
Either way

'Cause I can't wait around for you, you, you  
'Cause I got too many things to prove, ooh  
I think it's time that you choose  
What this really means to you  
I wish I could read your mind  
Just to predict your next move  
Yeah 'cause I can't wait around for you, you, you

Baby, I'm still home holding on for all of my patience  
Baby, I'm still holding on, holding on to you

'Cause I can't wait around for you, you, you  
'Cause I got too many things to prove, ooh  
I think it's time that you choose  
What this really means to you  
I wish I could read your mind  
Just to predict your next move  
Yeah 'cause I can't wait around for you, you, you
