

## Double Barrel

Austin Snell

I learned to be tough growing up in between  
Mama's addiction to dad getting clean  
Bound and determined to find something more  
Drug down by baggage I bring to the door

The heart that's on this sleeve's a loaded gun  
The safety's off this will and won't give up

My love for you's a long shot  
And there's damage in these bullets  
So I can't promise you where they'll go  
My finger's on the trigger and I ain't afraid to pull it  
But before I do I gotta let you know  
I got the short end of a double barrel

I can't pick my brush but I'll learn how to paint  
With the colors you're bringing to my shades of gray  
You can show me where to aim but I'm still bound to miss  
But for better or for worse I don't know how to quit

My love for you's a long shot  
And there's damage in these bullets  
So I can't promise you where they'll go  
My finger's on the trigger and I ain't afraid to pull it  
But before I do I gotta let you know  
I got the short end of a double barrel

The heart that's on this sleeve's a loaded gun  
The safety's off this will and won't give up

My love for you's a long shot  
And there's damage in these bullets  
So I can't promise you where they'll go  
My finger's on the trigger and I ain't afraid to pull it  
But before I do I gotta let you know  
I got the short end of a double barrel
