

# Duffle Bag

Austin Snell

Ain't hung up on hanging round  
Why build a bridge just to burn it down  
But if there a choice, there's a chance I'll find the right thing  
Walking in, looking back, one hand on this duffel bag  
I'm tired of the road, but ready to go  
If I catch the right breeze  
For good or bad I never pack  
No more than I need

It ain't got much, but it's got enough  
To hold me down, or help me run  
I don't wanna walk away  
But I'm ready for anything  
I've got the heart but it's hard to stomach  
Someone might want all my luggage  
Got my ticket out  
If my dust don't settle down  
I'm packing light, and I mean to stay  
But this duffel bag comes with me either way

Baby I been here before  
That's why I keep it by the door  
Ain't scared of love  
But I lost enough  
To be prepared to leave  
My heart is yours for the taking  
But if it takes a turn for the breaking  
I promise, I won't make it  
Harder than it has to be

It ain't got much, but it's got enough  
To hold me down, or help me run  
I don't wanna walk away  
But I'm ready for anything  
I've got the heart but it's hard to stomach  
Someone might want all my luggage  
Got my ticket out  
If my dust don't settle down  
I'm packing light, and I mean to stay  
But this duffel bag comes with me either way

I hoping it's right  
But if it ain't right  
Then that's ok  
I can leave here  
Before those tears  
Hit your face

It ain't got much, but it's got enough  
To hold me down, or help me run  
I don't wanna walk away  
But I'm ready for anything  
I've got the heart but it's hard to stomach  
Someone might want all my luggage  
Got my ticket out  
If my dust don't settle down  
I'm packing light, and I mean to stay

But this duffel bag comes with me either way
