

# Get There First

Austin Snell

(Oh)

(Oh)

There ain't too many 2 AM backroads  
That I ain't drove on drunk  
There's a trail of hell behind my truck  
That I just can't outrun  
They're cursin' her name, the man I became  
And the flame that's done burnt out  
Heard there's a place out there for guys like me  
But demons are chasin' me south

Yeah, I gotta get there first  
Before they build a wall I can't knock down  
If I'm gonna make this work  
I gotta cover miles on this ground  
I can see the light at the end of the bottle  
Drinkin' my way through the end of this trouble  
I'll let the past be the past and the worst be the worst  
But all I know is I gotta get there first

(Oh)

If the water run fast enough to flush these pills  
They wouldn't be on the counter  
If this whiskey glass could hold anything more  
It'd be enough to drown her  
But, oh  
I'll take more  
And, oh  
I gotta get myself off the floor

But I gotta get there first  
Before they build a wall I can't knock down  
If I'm gonna make this work  
I gotta cover miles on this ground  
I can see the light at the end of the bottle  
Drinkin' my way through the end of this trouble  
I'll let the past be the past and the worst be the worst  
But all I know is I gotta get there first

Gotta get there first

(Oh)

Get there first

(Oh)

Yeah, I gotta get there first  
Before they build a wall I can't knock down  
If I'm even gonna make this work  
I gotta cover miles on this ground  
I can see the light at the end of the bottle  
Drinkin' my way through the end of this trouble  
I'll let the past be the past and the worst be the worst  
But all I know is I gotta get there first

(Oh)

Gotta get there first

(Oh)

Get there first
