

Still Bleeding

Austin Snell

Pills and bourbon
Walking in the boots of a locked up daddy
Stumbling searching
Trying to find a light in the shadow of a valley
Down he goes again
From the outside looking in
I'll admit I've been living
Like a boy who's born to die young

The devil ain't giving me up
He's got a lotta chips on my table
Knows how a make a deep cut
Bring out the Cain in my Abel
I'm choking but I'm breathing
Hearts broke, it's still beating
These veins are whiskey soaked
But don't count me out
As long as I'm still bleeding

Temptations been raging
Dragging my knees on a hardwood floor
Been praying for salvation
And anyway outta this tug of war
But here I go again
Trading freedom for a sin
And another bite out of the apple that I know ain't sweet

The devil ain't giving me up
He's got a lotta chips on my table
Knows how a make a deep cut
Bring out the Cain in my Abel
I'm choking but I'm breathing
Hearts broke, it's still beating
These veins are whiskey soaked
But don't count me out
As long as I'm still bleeding

I'll be fighting this fight till my ashes go back to the dust
But I'll give it all I got down to my last drop of blood

The devil ain't giving me up
He's got a lotta chips on my table
Knows how a make a deep cut
Bring out the Cain in my Abel
I'm choking but I'm breathing
Hearts broke, it's still beating
These veins are whiskey soaked
But don't count me out
As long as I'm still bleeding
