

Yeah

Austin Tolleriver

She saw what she wanted
Then she got up on it
Wanted to get gone and
I was like yeah
I thought she was bad
When she came in with her man
Imma give that girl a chance
And she was like yeah
We should leave this party, yeah
You and me could just ghost everybody, yeah
How far you wanna go, yeah
I'll take you there
Girl if you down to roll
All you gotta do is say yeah

So tell me whatcha dreams are
They call me Cupid shootin' arrows into these hearts
You committed 'cause I finish if I start it
You think you bad enough to take me off the market
I don't know

You gon' have to work for it
Jump up on the stage girl and twerk for it
I hope you ready for a long night
And we can keep it going 'cause it feels right
Yeah, yeah yeah

She saw what she wanted
Then she got up on it
Wanted to get gone and
I was like yeah
I thought she was bad
When she came in with her man
Imma give that girl a chance
And she was like yeah
We should leave this party, yeah
You and me could just ghost everybody, yeah
How far you wanna go, yeah
I'll take you there
Girl if you down to roll
All you gotta do is say yeah

She asked me what I'm drinkin'
She grabbed my leg, bet I know what she thinkin'
Now Imma give her something longer than the weekend
I hear ya knocking girl, Imma let the freak in
Yeah

You gon' have to work for it
Jump up on the stage girl and twerk for it
I hope you ready for a long night
And we can keep it going 'cause it feels right
Yeah, yeah yeah
