

Tell Me That You Love Me

Austin Williams

Look me in my eyes, tell me that you love me
Damn, do you really love me?
Maybe I'm just overthinkin' 'cause I'm over drinkin'
But do you even need me?
If I walked out in the middle of the night
Would believin' even ever cross your mind?
So look me in my eyes and tell me that you love me

It just don't feel like it used to
When you're lyin' next to me
I'm stuck here wonderin' if you
Ever thought that this was meant to be
I've been seein' that spark in your eye
Go out all day, at a time, and I don't know why
If there's anything left, baby, I can't see
So look me in my eyes and tell me that you love me
(Love me, love me)

Hold me close at night
Tell me I'm the only one you ever needed
You're gettin' farther in the bed
Maybe I'm just in my head
If there's anything left I can't see, yeah

It just don't feel like it used to
When you're lyin' next to me
I'm stuck here wonderin' if you
Ever thought that this was meant to be
I've been seein' that spark in your eye
Go out all day, at a time, and I don't know why
If there's anything left, baby, I can't see
So look me in my eyes and tell me that you love me
Tell me that you love me

I'm givin' in to you, don't know what to do
Girl, won't you tell me the truth?
So look me in my eyes and tell me that you love me
Look me in my eyes and tell me that you love me

It just don't feel like it used to
Yeah, when you're lyin' next to me
I'm stuck here wonderin' if you
Ever thought that this was meant to be
I've been seein' that spark in your eye
Go out all day, at a time, and I don't know why
If there's anything left, baby, I can't see
So look me in my eyes and tell me that you love me
(Love me, love me)
You tell me that you love me
(Love me, love me)
