

# Phases

AUSTN

We go through phases  
I don't know what to do  
Some days we're breaking  
Some days we're bulletproof  
We keep on changing but one things always true  
I'll never give up, never give up on you

It was easy when we started  
Everything I ever wanted  
Why does it feel like winter in August  
I don't want to let you down  
So baby, don't let me down  
You leave my head and my heart in a fire  
But it gets cold every once in a while  
Oh, this love feels different every time

Cause we go through phases  
I don't know what to do  
Some days we're breaking  
Some days we're bulletproof  
We keep on changing but one things always true  
I'll never give up never give up on you

I'm not perfect but I'm trying  
They say time is money, so I'll spend it all on you and I  
Cause we could be so divine  
I don't want to let you down  
So baby, don't let me down

You leave my head and my heart in a fire  
But it gets cold every once in a while  
Oh, this love feels different every time

Cause we go through phases  
I don't know what to do  
Some days we're breaking  
Some days we're bulletproof  
We keep on changing but one things always true  
I'll never give up never give up on you

Through all these phases, ooh  
Through all these phases, ooh  
Through all these phases, ooh  
Oh, this love feels different every time

We go through phases  
I don't know what to do  
Some days we're breaking  
Some days we're bulletproof  
We keep on changing but one things always true  
I'll never give up, never give up on you

Through all these phases, ooh  
Through all these phases, ooh  
Through all these phases, ooh  
I'll never give up never give up on you
