

Change The Paradigm

Austra

If you can imagine, it can be real
A self destructing ego is not the only way
Don't think with your nation
Don't think with your age
Imagine something different
Just change the paradigm

Reality is fluid, a single drop can make
The current of the ocean reach up to space
Don't accept your constraint
Don't accept our fate
Look far beyond it
And find another way (way, way, way, way)
Change the paradigm
Change the paradigm
Change the paradigm
Change the paradigm

History ingrained

What do we do?
What do we do?
What do we do?
Change the paradigm
Change the paradigm
Change the paradigm

Change the paradigm
(What do we do?)
Change the paradigm
(What do we do?)
Change the paradigm
(What do we do?)
Change the paradigm
(What do we do?)

History ingrained
(Change the paradigm)
History ingrained
(Change the paradigm)
History ingrained
(Change the paradigm)
History ingrained
(Change the paradigm)
