

## Fallen Cloud

Austra

I want you to be different  
We could be absolutely perfect  
If you would just change, only a little bit

A few modifications here and there  
Nothing major  
Just enough so that our paths align  
Our futures can marry  
And you decide I am right for you  
After all

Take me with you  
Take me with you  
Take me with you  
Take me with you

I can be the sky  
You're in the east  
Fallen cloud  
I can be the sky  
You're in the east  
Fallen cloud  
I can be the sky  
You're in the east (Take me with you)  
Fallen cloud  
I can be the sky  
You're in the east (Take me with you)  
Fallen cloud  
I can be the sky  
You're in the east  
Fallen cloud  
I can be the sky  
You're in the east (Take me with you)  
Fallen cloud  
I can be the sky  
You're in the east  
Fallen cloud  
I can be the sky  
You're in the east  
Fallen cloud  
I can be the sky
