

# Good Riddance

Austra

All the wishing and hoping I've done is for nothing  
Your words are for nothing  
Turns out it meant nothing to you

All the tears and the nightmares I've had are for nothing  
The stains are for nothing  
Turns out, we weren't different at all

But here, among the angels  
I finally feel at peace  
Protected by my family  
Good riddance

All the time wasted longing for you was for nothing  
Those drafts were for nothing  
My songs, they meant nothing to you

Holding on to the fantasy I had invented  
A dream that I rented  
Burnt out, many years ago now

But here, among the angels  
I finally feel at peace  
Protected by my family  
Good riddance

Been hanging on too long like a fool  
Like a fool  
Like a fool  
Been hanging on too long like a fool  
Like a fool  
Like a fool

Good  
Good riddance
