

## Habitat

Austra

Deep down that was your all that I had  
Dangling into the bed, I pray I'm there  
I can't find the words to break your curse  
Something inside the book or it bursts

It's wasn't I, I found the knife  
Buried inside the bed, the looks of love

I WANT YOU  
I need you, brother  
I WANT YOU  
I need you, brother

Who would've thought anything gone tonight  
Is young and mine  
Feeling extreme, I want you to breathe  
The rest of your own fire

Diving into the bed, the night is young tonight  
Even in space I look for your face  
A spark or the light, baby

I WANT YOU  
I need you, brother  
I WANT YOU  
I need you, brother

Coming through, connection with you  
It makes my soul aroused  
Unspoken like a machine  
The force and the fire

Ease through, I found it in you  
The animals are there  
Shimmering through the evil in you  
The dark is in the dark

I WANT YOU  
I need you  
I WANT YOU  
I need

I WANT YOU  
I need you, brother  
I WANT YOU  
I need you, brother
