

Creepers

Authority Zero

This is a little book of clarity
Don't sweat the small stuff
It's all small stuff to me
In the mean time stay in the game
With that in mind you're thinkin' I'm insane
I'm not suggesting that you stick your head
Think I've experienced a lot of it
Your conscience just about to regulate
Your elevation about to elevate
Here's a little penicillin for the mind
Fear and conflict of a greater kind
Here's another way to think about it
It takes control and then there's no way out
No way out of it

Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!
Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!

A paradox starts to shift and wind
Let's raise the bar to another high
The roots are turning into heroin
The morphine's starting just to settle in
Contaminated thinking on the rise
Which reinforces clarity of mind?
Live a life enough to demonstrate
Look to the source and watch it agitate
Watch it agitate yeah

Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!
Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!

Here comes your shining star of disbelief
For all you know it ain't just a fallacy
No where to run
No where to hide
Just stay alive
No where to run
No where to hide
Just stay alive
No where to run
No where to hide
Just stay alive
No where to run
No where to hide
Just stay alive

Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!
Is this the end they all talked about?
Is this the end we could do without?
Is this the end?
Better sort it out!

Better sort it out!
We could do without
You better sort it out
