

Damage Control

Authority Zero

Can you believe all the things that people say?
Communication barrier pushing you away
Your self justification lies ahead
No way other than the voices in your head

Have you ever ever seen this side of me?
Is there someone out there tugging at your strings?

You're lost and found out once again
Special delivery running through your busy head
Lying awake at night just trying to find a clue
No one to talk it out
Except the voices talking back to you

Have you ever ever seen this side of me?
Is there someone out there tugging at your strings?
Have you ever ever seen this side of me?
Did you ever think about the possibilities?

Who's gonna save your life?
Who's gonna change your mind?
Who's to say it isn't you?
Who's gonna take the time?
No one can change your mind
You're the one behind the wheel
You're the one who's steering it

Last time I saw you, you were dancing with yourself
Everyone was looking your way, looking at someone else
You were always wandering just like you always do
Do you wanna talk it out?
Yeah, I'm talking to you

Who's gonna save your life?
Who's gonna change your mind?
Who's to say it isn't you?
Who's gonna take the time?
No one can change your mind
You're the one behind the wheel
You're the one who's steering it

Who's gonna save your life?
Who's gonna change your mind?
Who's to say it isn't you?
Who's gonna take the time?
No one can change your mind
You're the one behind the wheel
You're the one who's steering it!
