

Fire Off Another

Authority Zero

Does it seem strange to you
I had the best intentions
Away with you
All these weighted questions
Too much too soon
You know you saw it coming
No surprise you flew
The coop and just kept running

Under your thumb
Pressing your intentions
Run run run
Typical reaction
One by one
Yeah one by one
One by one
Seeking immediate attention

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong
We can do this all day long
I'm right, you're wrong

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong
We can do this all day long
Fire off another I'll be right here

What started as a joke
Turned quickly to confession
From the second that you spoke
Immediate distractions
Such a cataclysmic rogue
Feeding off affection
No exception
Your reflection needs immediate attention

Under your thumb
Pressing your intentions
Run run run
Typical reaction
One by one
Yeah one by one
One by one
Seeking immediate attention

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong

We can do this all day long
I'm right, you're wrong

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong
We can do this all day long
Fire off another I'll be right here

It's getting cold outside
There's a storm rolling in
It's gonna take a while
To reprehend what has been

It's getting cold outside
There's a breeze in the air
It's gonna take a while
To reprehend what has been

It's getting cold outside
There's a breeze in the air
It's gonna take a good while
To reprehend what has been

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong
We can do this all day long
I'm right, you're wrong

Fire off another
You're in over your head
Fire off another
From the moment that you said
I'm right, you're wrong
We can do this all day long
Fire off another I'll be right here

I'm right, you're wrong
I'm right, you're wrong
I'm right, you're wrong
