

## Lift One Up

Authority Zero

Shouting at the top of your voice to make a difference  
Til you're passing out or spitting your last breath in the air  
You've got a long long way until you figure it out  
Back to the basics of how you got there  
Tonight we're living like the end of the world is finally happening  
Screaming until our voices are gone  
And then we'll do it again  
This is a chance to make things right  
This is our chance to feel alive and shout it out

They say you're never gonna know until you give it a try  
Until you give it a shot  
I say that there's nothing that can slow you down  
Or make you stop  
Just keep it moving  
And then take it to the ends of the earth  
And shout it out  
Until you find out what it's really worth  
I figure there's only one way back in the end  
You take a long hard look  
And then you do it again  
Tonight we're living like the end of the world has arrived  
This is our chance to feel alive  
Come on and shout it out

Whoah!  
Give me something true  
Whoa!  
What's it mean to you?  
This may come as a surprise  
In some ways we're living the same live  
And singing  
Whoa!  
I'll always be there for you

So now there's music in the air  
That takes us to that place  
Another turning point  
That's brought us here face to face  
So give us something that is true  
And helps us understand  
A voice to help us make it through  
See i'm the kind of guy  
That's always betting on the best  
Those little moments  
That you truly put yourself to the test  
I'm shouting out until my voice is gone  
This is it  
Tonight let's feel alive  
Come on and shout it out

So lift one up  
To put one down  
We'll keep singing these old songs our whole lives through  
It's where we're found  
They've touched our hearts  
They've saved our lives

Through thick and thin they've been there  
To help us through and reconcile  
And singing

Shouting at the top of your voice to make a difference yeah  
Yeah you've still got something to say  
We've got a long way until we figure it out  
Fighting just to break on through and make a difference yeah  
Yeah you've still got something to say  
You've got a long long way until you figure it out  
Back to the basics of how you got there.
