

Lights Out!

Authority Zero

Lights out!
Yeah, it's time that you put up a fight
No looking back
There's a fire in your heart tonight
You wanna make moves?
Tell me what you're trying to prove
Yeah, what ya looking to do
What you looking to do

Eyes shut with a face like a heart attack
Thought you saw a ghost
Nah it's just someone who fights back
Bare knuckles yeah it's time to take the gloves off
Shift and move as you rally take your best shot
Kick up your feet and take control of the solution
Shots to the head got you caught up in confusion
Thought I would sit back, and not take a hard stance
Don't look now but it's about to be our last dance

Are you beaten to the core?
I'll see you on the dance floor

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother
Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting harder!

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother
Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting harder!

Caught up in the crossfire
I gather it's time to rewire
Hardwired
Retire
Infiltrate the beat prior
Got you on the rewind
Lookin' for the right time
Trip up on your words now now the rhythm's fallin' behind

So here we are
Let's chalk it up to plans and rewrite
Eyes up, revolt, everybody sit tight
Gotta shake em up, yeah
Hit 'em where it hurts man
Not a vacation

Liberate this wasteland

I can't fake this anymore
I'll see you on the dance floor

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother
Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting harder!

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother
Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting harder!

Confront it!

Just take a look at yourself
Are you feeling complacent?
Because you're not alone
Don't you know?
Just be your beautiful self
Turn and face this
And call this place your home
Cause you're home

Just take a look at yourself
Take a look at yourself
Just take a look at yourself
Take a look at yourself
Just take a look at yourself
Take a look at yourself
Just take a look at yourself
Confront it!

Hey!
You!
Caught under heels of the of the opposition
Hey!
You!
Just step back!
Take another step back!
Hey!
Don't let them
Walk all over you!
You know what to do!
I'll see you on the dance floor

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother

Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting hotter

Are we all alone?
Are we all alone?
Are we on our own?
Lights out!
Why do I even bother
Are we all alone?
Beaten to the bone
Looking for answers
But it keeps getting hotter

Just take a look at yourself
What you gonna do?
Yeah, what you trying to prove?
