

Mush Mouth

Authority Zero

What's this?

A new reaction that you thought you'd never live to see

What's this?

A distorted paramount full of endless possibilities

What's this?

Hell and night water I won't let them get the best of me

Cause first things first

We're going, we're going all of the way

What's this?

An implication sitting right there at your blistered feet

That ship has sailed is something that I just do not believe

Too much too fast has never really been that way for me

Because we're going, we're going all of the way!

All of the way!

All of the way!

All of the way!

We're going all of the way!
