

# No Guts No Glory

Authority Zero

What the fuck went wrong?  
I've been sitting here beside myself  
Singing along to my own songs  
No alibi  
No reason why  
Just memories  
A passage in time  
Drawing my own conclusions  
Another scrapbook that you find  
Some days you'll run the risk of being caught up  
In your own pair of shoes  
Some days you'll fight  
Becoming paralyzed  
Seeking out what not to do  
Inside you're fighting your own war  
A battleground covered in tattered sores  
The realization  
The dreams you're chasing  
That show you what you are

My life  
My life  
Oh how you torture me  
Just give me somethin'  
My life  
My life  
Oh how you torture me  
It's something I won't forget  
My life  
My life  
Oh how you torture me  
No guts no glory  
No time for sorry  
Only time to begin

Tear out your eyes  
Blinded by the light shining bright  
Give me a chance  
I still have some fight  
The last thing I remember was a falling out  
So pour me one down  
I'll tell you a story  
No glitz and glamour  
Just guts and the glory  
And the stories  
Oh the stories...  
Oh the stories...

My life  
My life  
Oh how you torture me  
Just give me somethin'  
My life  
My life  
Oh how you torture me  
It's something I won't forget  
My life

My life  
Oh how you torture me  
No guts no glory  
No time for sorry  
Only time to begin

Because in the end  
It starts to sink in  
In the end  
Find my self starting again  
In the end  
It starts to sink in  
In the end  
Find my self starting again  
In the end  
It starts to sink in  
In the end  
Find my self starting again

My life  
My life  
Oh how you torture me  
Just give me somethin'  
My life  
My life  
Oh how you torture me  
It's something I won't forget  
My life  
My life  
Oh how you torture me  
No guts no glory  
No time for sorry  
No time for sorry
