

## Society's Sequence

Authority Zero

The world breaks loose as we grab for the noose  
We're spinning round an round like we're never going to lose  
Falling farther fast and always coming in last  
Jumping up and down, well, look what I've found here

I've found society  
It's been lying to me  
It's got a hold and with a really tight grasp

Let's run and face this from a different point of view  
It's going on all around us just tell me the truth  
What's right? Tell me what's wrong  
News stands and media can't be wrong?

What's in the papers for one and all?  
A modern world that is never going to fall?  
Just quit lying to me and let me be free  
Take a step back and what do I see here?
